Guido Bosh

Guido Bosch is specialized in animal nutrition and has obtained his PhD in this area at Wageningen University, The Netherlands, in 2009. Over the years his focus extended towards the use of insects in animal feed including aspects like nutritional value and (dis)functional properties and towards the nutrition of insects. The work that will be presented is part of a larger multidisciplinary project. He has published more than 50 articles in international peer-reviewed scientific journals.
